<https://whatsmyname.me>

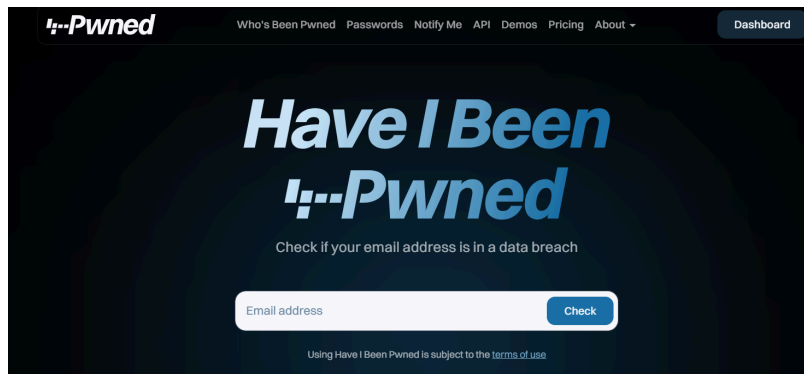

Search for user name per example

Gives you all the website

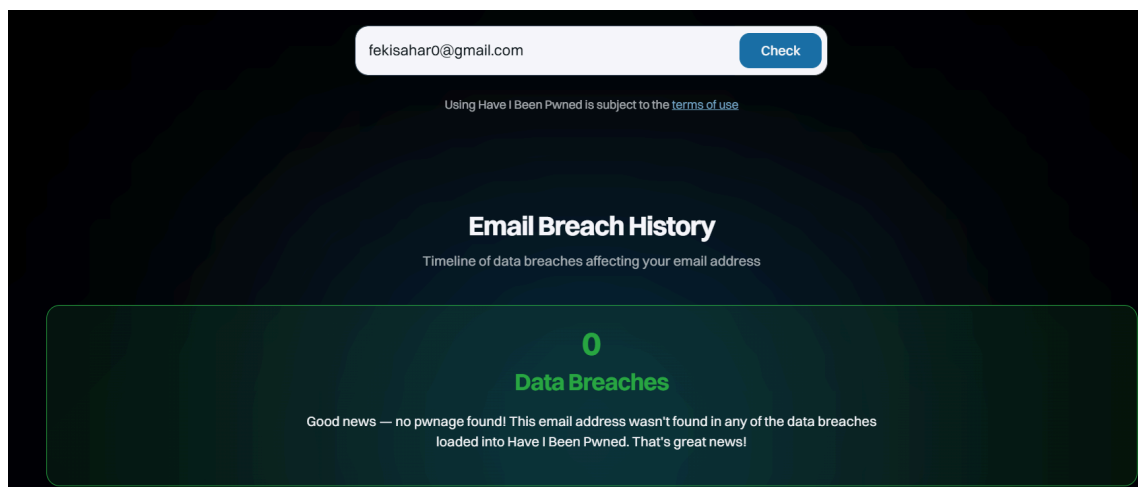

For Sherlock / maigret: need CMD Linux Machine

<https://haveibeenpwned.com>

Check if your email address exists in data bridge or not

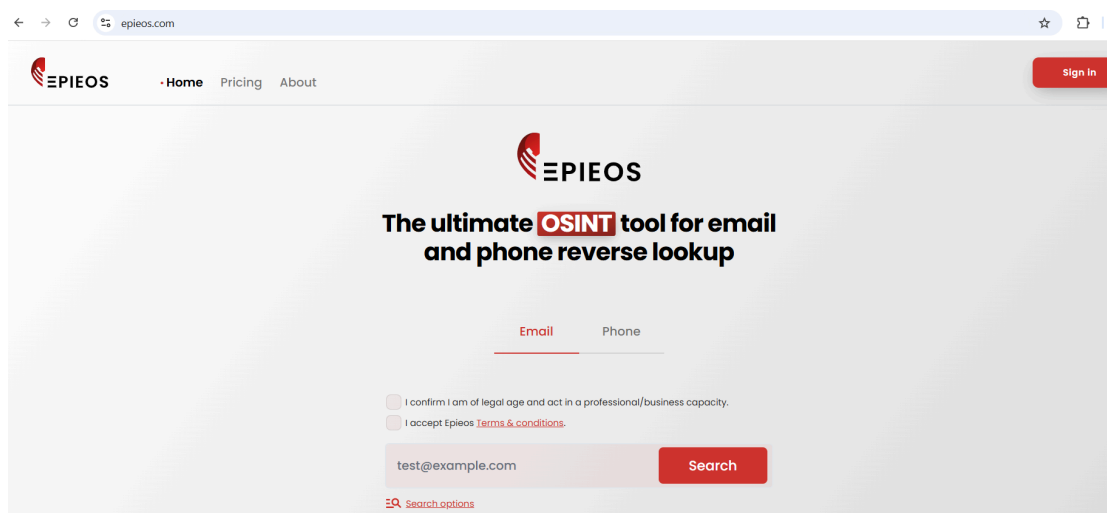

The image shows the top section of the 'Have I Been Pwned' website. It features a dark blue background with the site's logo at the top left. A navigation bar at the top right includes links for 'Who's Been Pwned', 'Passwords', 'Notify Me', 'API', 'Demos', 'Pricing', and 'About'. A 'Dashboard' button is also present. The main heading 'Have I Been Pwned' is prominently displayed in a large, light blue font. Below it, a subtitle reads 'Check if your email address is in a data breach'. A search form with a text input field labeled 'Email address' and a 'Check' button is centered on the page. At the bottom, a small link for 'terms of use' is visible.

This image displays the 'Email Breach History' section of the 'Have I Been Pwned' website. The background is dark blue. At the top, the email address 'fekisahar0@gmail.com' is entered in the search bar, with a 'Check' button to its right. Below the search bar, a message states 'Using Have I Been Pwned is subject to the terms of use'. The main heading 'Email Breach History' is centered, followed by the subtitle 'Timeline of data breaches affecting your email address'. A large green box in the center contains the number '0' and the text 'Data Breaches'. Below this, a message reads: 'Good news — no pwnage found! This email address wasn't found in any of the data breaches loaded into Have I Been Pwned. That's great news!'

<https://epieos.com/>

The image shows the homepage of the 'Epieos' website. The header includes the 'Epieos' logo, navigation links for 'Home', 'Pricing', and 'About', and a 'Sign In' button. The main content area features the 'Epieos' logo and the tagline 'The ultimate OSINT tool for email and phone reverse lookup'. Below this, there are two tabs: 'Email' (selected) and 'Phone'. A search form with a text input field containing 'test@example.com' and a 'Search' button is located below the tabs. Two checkboxes are present: 'I confirm I am of legal age and act in a professional/business capacity.' and 'I accept Epieos Terms & conditions.' A link for 'Search options' is at the bottom left.

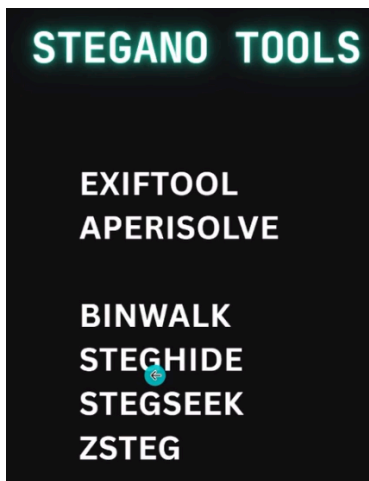

Check for example the location of the sender with service: google map

EXIF.tools Upload File Get URL

EXIF.tools

A multimedia file metadata tool

EXIF.tools runs [exiftool](#) to extract all metadata about an uploaded or internet-located object. Exif.tools is not associated with Phil Harvey (the creator of *exiftool*) but is here to be a simple web-wrapper for the tool for online use. Questions/comments can be sent to me@luke.lol

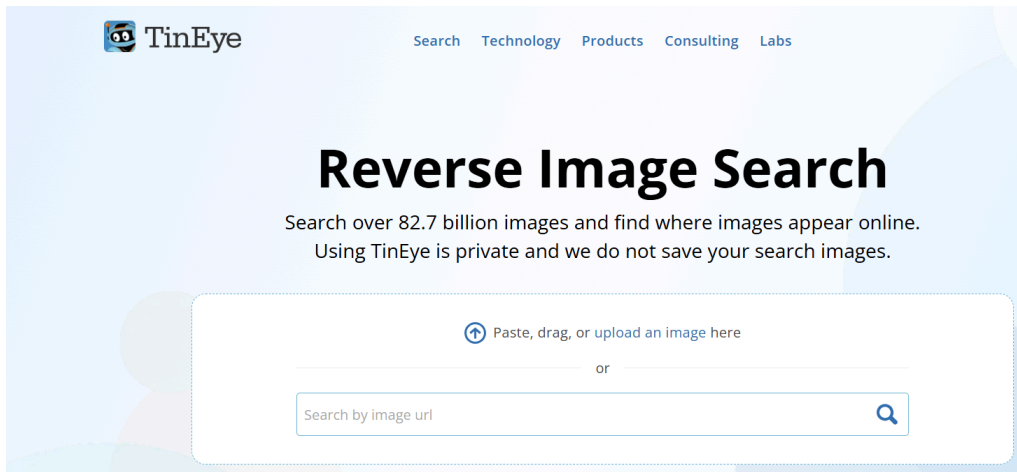

View File Metadata via Upload

6. Google dorking

GOOGLE DORKING

Google dorking (also called Google hacking) is the use of advanced Google search operators to find information that is publicly accessible but not meant to be easily found.

Examples :

site:example.com → search only inside one website

filetype:pdf → search only for PDF files

intitle:"index of" → find open directories

<https://www.exploit-db.com/google-hacking-database>

<https://kriztalz.sh/search-dorks/>

<https://dorkgenius.com/>

dorkgpt.com

Example: searching for a book: name_book filetype:pdf

HOME

FAQS

RANKS

RESOURCES

HOME

Hello and welcome to the OSINT Dojo! We are a project that aims to guide those new to Open Source Intelligence (OSINT) through the first steps of their journey. Our goal is to provide those new to the OSINT field a number of free resources and simple challenges that build on one another to provide a simple road map for learning more about the field and polishing up related skills while also earning badges to show off your accomplishments.

We provide a total of 25 OSINT-related challenges spread across five different ranks. Each rank contains challenges from similar categories, each of which corresponds to an OSINT related activity or skills, such as OSINT CTFs and OSINT Quizzes that build investigative skills or challenges that require written or verbal communication. Each rank also has a unique challenge associated with that level. As the rank increases, so does the difficulty of the associated challenges. Once you complete all of the challenges in an associated rank, you can submit a rank up request and we will review your submission and, if your submission is accepted, award you a new badge.

To get started, please review the links on the left, and should you have any questions, please reach out to us on Twitter or via email.
